EDUCATION

Higher Institute of Applied Sciences and Technology of Sousse **Tunisia, Sousse**
Engineering Degree in Computer Science & Software Engineering 2024-2027 (Expected)
Relevant Coursework: Software Engineering; Operating Systems; Advanced Algorithms; Data Structures;
Databases; Database Administration; Networks

Higher Institute of Applied Sciences and Technology of Sousse **Tunisia, Sousse**
Bachelor's Degree in Computer Science 2021-2024
Relevant Coursework: Intro to CS and Algorithms; Operating Systems; Algorithms; Data Structures;
Databases; Database Administration; Intro to Networks;

PROFESSIONAL EXPERIENCE

Proxym **Tunisia**, **Sousse**
Software Engineer Intern Feb 2024 – Jun 2024
- Design and develop a web/mobile version of a crowdfunding platform for startups, which creates a new channel for startups to pitch their ideas and look for investments, and investors can invest in the platform.
- Utilized DialogFlow + Redis to create a chatbot that can answer FAQs about the platform, and invest/refund on behalf of the user.
- Utilized a tech stack including React, React Native, NestJS, PostgreSQL, Docker, Azure, DialogFlow, and Redis to enhance platform functionality, leading to improved system performance and scalability

PERSONAL PROJECTS

ISSATSo Schedule Scrapper ([Github Repo](#), [Demo](#)) **Feb 2024**
- A full-stack web application that fetches schedules and checks for available classrooms on a given day and session. The app is used by most ISSATSo clubs to check for available classrooms to host meetings/workshops or study.
- **ReactJS, Typescript, Django, Python, BeautifulSoup, PostgreSQL, Docker, Azure**

Todo Mobile Application ([Github Repo](#), [Demo](#)) **Nov 2023**
- This Android application provides a user-friendly platform for managing tasks while incorporating authentication and local storage mechanisms for enhanced security and data persistence.
- The app has a French and an English version.
- **Java**

GDSC Discord Bot ([Github Repo](#), [Demo](#)) **Jan 2022**
- A private general-purpose Discord bot made to organize the Discord server of a volunteer activities club.
- **Python, Discord.py, Azure, Docker**

Yoink Yoink ([Itch.io](#)) **Mar 2021**
- A Unity game I developed called "yoink yoink" can be played in a browser or downloaded; it supports local multiplayer.
- **C#, Unity**

ACTIVITIES AND LEADERSHIP

Google Developer Groups On Campus (**fka Google Developer Student Clubs**)   **Sousse**, TN
Technical Lead (1 year) / Core team member (3 years)   Nov 2021 – Present
- Developed a Discord bot to manage our server, leading to better community management and server monitoring.
- Hosted several workshops on Python, React Native, and Machine Learning, enhancing participants' skills and increasing engagement by utilizing interactive coding sessions and real-world examples

SKILLS AND OTHERS

- **Programming Languages**: Python, C#, Java, Javascript, Typescript, C, C++
- **Technologies & Tools:** .NET, Discord API (Discord.py/DSharpPlus), Django, Flask, Azure, Entity Framework, React JS, React Native, Docker, Git, (MS SQL, MySQL, PostgreSQL), Redis, DialogFlow
- **Online Courses and Certificates:** Google IT Automation with Python by Google on Coursera, Microsoft Certified: Azure Fundamentals, Qwiklabs GCP tracks, CCNA: Introduction to Networks, Foundational C# with Microsoft, Docker for the Absolute Beginner - Hands On
- **Languages:** Arabic (Native), English (Professional proficiency), French (Elementary proficiency)
- **Hobbies:** Chess, Gaming
